

CRUMBLING COASTS

HOOK

Start to investigate the different features of coastlines: arches, stacks, caves, stumps, spits, bays and headlands.

Be introduced to Lucy, a young girl with a huge adventure ahead of her, in our rich read, 'The Girl Who Rowed the Ocean'.

Discover the real life adventures of the author of our rich read, Alastair Humphreys, who really enjoys a microadventure. You will get to plan your very own microadventure.

Where will it take you?

English

Immerse yourself into 'The Girl Who Rowed the Ocean' by getting to know the main character – Lucy.

Science

Investigating the effect of friction.

Art

Use pointillism to paint a coastline.

English

Write diary entries as Oly Rush on one of his swimming adventures.

OUTCOME

Host a debate on sea defences at Lepe Beach, presenting your plans to Year 4. Should the sea defences at Lepe Beach be replaced?

Geography

Investigating how beaches and other types of coastlines are formed through erosion.

English

Explore features of diary writing, looking at Lucy's diary extracts whilst on her adventure.

English

Write diary entries as Lucy, based on her adventures whilst rowing the Atlantic Ocean.

Geography

Go on a field trip to Lepe Beach to investigate features of coastlines and coastal defences.

Science

Investigating different forces. Visit Paultons Park to see forces in action!

Computing

Use Micro:bits to make your cardboard crab move.

DT

Build a sea defence that needs to be effective during testing.
