

DINGLE AND HIS TRUSTY DEERE SAVE CHRISTMAS

(In aid of George Dillon Only A Dream Away)

It was a cold winters night with less than two weeks before Christmas when Farmer Dingle once again received an emergency call from the North Pole. 

It would appear that Father Christmas had yet again got himself into some bother, however, all was not lost as he knew just the man for the job. Very sadly, during this cold winter spell Father Christmas sleigh had been experiencing major problems as the navigation panel switches had all seized up from the icy cold, and without a working sleigh Father Christmas wouldn't be able to deliver the children's gifts. This was a disaster as the elves had been working extra hard all year to ensure everybody received a gift. Magic potion was the only solution. The problem was, as we all know, the special potion can only be found at The Compass Inn and without the assistance of the sleighs navigator, Father Christmas needed extra help finding it. There was nobody more perfect for the job than our local Farmer Dingle and his trusty deere to help Father Christmas and his elves on their mission.....

Without delay, once again Farmer Dingle spread word to the local farming community for help and in no time at all they all set about their journey to save Christmas 

Well, at this time of year with all the festivities taking place and a sprinkle of Christmas magic you may just catch a glimpse of some very strange things occurring right in front of your eyes . What with mums and dads getting everything ready, prepping all the veg and turkey for a magical Christmas dinner, wrapping gifts etc. you just never know what you might see 🤩

If you're very lucky, you may even catch a glimpse of Farmer Dingle and friends as they take Father Christmas and his Elves through the local villages in a bid to find the magic potion.

Saturday 13th December 4.30pm
Starting at Compass Inn, Winsor Road, Totton
