SWIMMING SKILLS THAT SPARKLE

NEW MILTON| LYMINGTON| APPLEMORE| RINGWOOD| TOTTON

Just like a spectacular fireworks display, every swimmer's journey starts with a single spark.

At Swim Academy, our incredible teachers nurture that spark into a dazzling display of confidence, achievement and lifelong swimming skills.

From mastering their first kick to swimming a full length independently, each lesson brings exciting moments worth celebrating.

With the support of our dedicated team, children can grow their abilities at their own pace while having fun, making friends and developing a love of the water.

This season, let your little one's swimming journey sparkle at Swim Academy.

What You Will Need
Clear Glass - Warm Water
Cooking Oil - Food Colouring
Small Bowl - Fork

Fireworks In A Glass

Ready to create your own colourful fireworks? This fun experiment is quick, easy and looks like magic.

1. Fill your glass about three-quarters full with warm water.
2. Pour the cooking oil into a small bowl.
3. Add a few drops of different food colouring colours into the oil.
4. Give it a gentle stir with a fork. Don't mix too much. You want lots of little colourful droplets.
5. Carefully pour the oil mixture into the glass of water.
6. Watch the magic happen!. The colours will slowly sink through the oil and burst into beautiful rainbow fireworks in the water.
